Man weather.

Entron Gazetto:—How the bad weather hobbs out. Shorte and rain, wind and sea, all seem combined to make the past few weeks, almost an bearable with ma. The whole beach is now lined with lumber, that has broken adrift from the Whitmen, who lays here trying to discharge her cargo. The freshest from the mountains have brought down an immense deposit of annu which now has formed an island off the mouth of the Wallaku, and this will soon be washed around and fill up again, our boat landing. What we need an good wharf right out from this side of the town out into the deep water of the bay. Thus, the mountains have good wharf right out from this side of the town out into the deep water of the bay. Thus, the mount into the deep water of the bay. Thus, the mount goundered on the "Genecological and here mother squandered on the "Genecological and here mother or available," would about have paid for. The necessity of a good wharf here is well known to the authorities, but even the present rickety old thing, is asserted for and the cry is "no mousy." And i guess that is true, "no moner," Ness to put where it will do any good and be a permanent bely to the country, but girely to throw away on Palace stables, ocean subsidies, and to test a crowd of hary police, who are supposed to be in accord. This brings me again to speak of un. Omana, Dec. 5.—At an early from this morali General Howard, commanding the Department of the Platte, received orders to some proof for Port Omana and other posts to some point which he refuses to make public.

Wassingros, Dec. 5.—The Republican Senato ral caucus nominated John Sherman of Obie

crowd of hary police, who are supposed to be in accord. This brings me again to speak of put marks.

A few days since I altempted to get out into the country a few miles, but a few miles out of fewn the roads were in so fearful a condition, that describes sold, form back. If they were not repaired a little in places, by the labor of the plantation; they would be impassable. And this is not the fault of the Supervisor. When he wants to go abead and work up our roads I'm told they cry from the departasect—"no mensey" now where is the money? Since the legislature of 1884, not less that 18 or 20,000 dollars have been paid in for our road tax. This "belongs to us" and the Government have not a right to one dollar of it. But has it been spent here? There is no one, even those who "have prudent for this grand ministry" that days to say it has been. The Government has no more right to touch one dollar of the road tax and spend it for any other purpose out side of the District where it is raised than I have to take money revealed to me and spend it otherwise than for the objects of that trust. And the Government having done this, it is nothing more or less than Grand Embezzlement. The Democratic members of the House of the presentatives use in reasons to night and nominated Cathisle of Kentineky for Speaker.

The camera then preceded to nominate minor offices, as follows: John B. Glarke of Missouri, present incumbent, for Clerk of the Hone; Leed ham of Onto renominated for Sergeant-at-Arms, Samuel Demokron of Temposee, doorkeeper. The name of Trainor of New York was withintawn. Postmaster Dalton was also renominated. Exceptions of the Company Postunsser Dalion was also reponsinated.
Caspiainer, Rev. W. H. Milburn, the blind preser of Chicago, was nominated. The nominated agreed upon will be presented in the house Monday by Mr. Tucker.

Embessilement.

Just now wholly occupies the sobols time of the Sheriff, his Deputy and oil the constables and Police force. Everything classis let go by the board. Now the cry is "Wait till the King comes and year's ee." Well I suppose that the Government candidates feel badly and have been crying to their "support," to come to their bely. We shall be glad to have the King come here, if on a rest. Monday by Mr. Tacker.

Price of Wisconsis offered a resolution for the appointment of a committee of three members to prepare and arge the passage of a bill guarding agusts the possibility of a vacancy in the office of the Freeident of the United States, but subsequently withdrew it and offered the following, which was adopted without opposition:
